

# COMMERCIAL 21

Model No. ECSKA21—Serial No. 920000 and Up

Picture below may not reflect actual product.

# Parts Manual

Part No. 4500-819 Rev. B

# Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

## Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

## Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

## Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

# List of Abbreviations

<b>AR:</b> as required	<b>HOC:</b> height-of-cut	<b>RRB:</b> rear roller brush
<b>ASM:</b> assembly	<b>HSBH:</b> hex socket button head	<b>SFH:</b> slotted fillister head
<b>BBC:</b> blade brake control	<b>HSFH:</b> hex socket flat head	<b>SHH:</b> slotted hex head
<b>BHTF:</b> button head thread forming	<b>HSH:</b> hex socket head	<b>SHWH:</b> slotted hex washer head
<b>CARR:</b> carriage	<b>HWH:</b> hex washer head	<b>SPH:</b> slotted pan head
<b>CCW:</b> counter clockwise	<b>HWTF:</b> hex washer head thread forming	<b>SQH:</b> square head
<b>CW:</b> clockwise	<b>HYD:</b> hydraulic	<b>SRH:</b> slotted round head
