

LAZER Z[®] X-SERIES

Model No. LZX921GKA726C1—Serial No. 400000000 and Up

Picture below may not reflect actual product.

Parts Manual

Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

Touch Up Paint

Exmark black touch up spray paint – gloss black.

Exmark red touch up paint (spray paint – P/N 1-850337 - .6 oz liquid bottle – P/N 103-9140).

If your Exmark dealer does not have the Exmark part in stock, Exmark will get the parts to the dealer the next business day or the part will be FREE Guaranteed!! (Some restrictions apply. See your participating Exmark Dealer for details.)

● Optional Equipment

▲ Torque to 90-110 ft-lb

□ Requires installation of mulch kit for proper mulching. See your Exmark dealer for details.

○ Apply Mobil HTS grease (P/N 103-5217 1.5 oz packet) (or a food-grade anti-seize). See operator s manual for locations.

▶ Apply lubricant to threads as needed to prevent seizing. Copper based anti-seize preferable. Grease is an acceptable substitute.

■ Torque to 55-60 ft-lb

♦ Torque to 160-185 ft-lb

This technical drawing is an exploded view of a mechanical assembly, showing the relationship between various components. The parts are numbered as follows:

- 1**: A long, curved arm or bracket.
- 2**: A small rectangular component, possibly a sensor or actuator.
- 3**: A small cylindrical pin or bush.
- 4**: A vertical support plate or bracket.
- 4:2**: A sub-assembly or specific section of part 4.
- 5**: A small rectangular component, similar to part 2.
- 6**: A long bolt or screw.
- 7**: A small circular washer or spacer.
- 8**: A small cylindrical pin or bush.
- 9**: A long bolt or screw.
- 10**: A small circular washer or spacer.
- 11**: A small circular washer or spacer.
- 12**: A rectangular plate or cover.
- 13**: A small rectangular component, similar to parts 2 and 5.
- 14**: A small rectangular component, similar to parts 2 and 5.

The diagram illustrates the assembly sequence and the spatial arrangement of these parts. Dashed lines indicate the alignment and path of assembly for the bolts (6, 9) and the various pins and washers (3, 7, 8, 10, 11). The curved arm (1) is shown in its final position, while the other components are shown in their relative positions as they would be assembled onto it.

● Not illustrated

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The diagram includes the following numbered parts and sub-assemblies:

- 1**: A small pin or clip.
- 2**: A fan or impeller assembly with a central hub and multiple blades.
- 3**: A circular base plate or cover.
- 4**: A small bracket or support piece.
- 5**: A small washer or spacer.
- 6**: A screw or bolt.
- 7**: A sub-assembly consisting of a housing, a ring, and a base.
- 8**: Multiple small screws or bolts used throughout the assembly.
- 9**: A large, complex housing or frame with multiple mounting points.
- 10**: A small pin or clip.
- 11**: A small bracket or support piece.
- 12**: A bracket or support piece.
- 13**: A small pin or clip.
- 14**: A small pin or clip.
- 15**: A large, ribbed housing or cover.
- 16**: A bracket or support piece.
- 17**: A bracket or support piece.
- 18**: A small pin or clip.
- 19**: A small pin or clip.
- 20**: A small pin or clip.
- 21**: A bracket or support piece.
- 22**: A bracket or support piece.
- 23**: A small pin or clip.
- 24**: A small pin or clip.

● Use dielectric grease on all unsealed connectors and terminals only. Do not apply in sealed connectors.

Notes:

MAXIMIZE THE PERFORMANCE OF YOUR EXMARK MACHINE.

EXMARK® PREMIUM ENGINE OIL

Exmark now offers a family of engine oil viscosities to perform well in any environment. Each viscosity has the same synthetic formulation to give you what you need in punishing conditions. We designed each grade to the highest quality, making it ideal even for diesel applications. Coupled with Exmark Premium Fuel Treatment, we have the performance products to make your machine hum.

EXMARK PREMIUM ENGINE OIL SAE 30/10W-30

- Meets zero shear requirements of a straight grade SAE 30 as well as the cold temp properties of a 10W-30.
- Most versatile oil in the industry.
- Superior corrosion protection over conventional oil - even in corrosive, humid environments.

EXMARK PREMIUM ENGINE OIL SAE 20W-50

- Perfect for your big block engine, or any application in severe service.
- Same full synthetic formulation as all other Exmark Premium viscosities.
- Also effective for use in severe service small block engines.

EXMARK PREMIUM ENGINE OIL SAE 10W-50

- Full synthetic formulation gives you peak performance. Don't settle for less.
- Wide span multi-grade combines easy starting in cold weather with maximum protection in high temperature operation.
- Reduce friction & wear over standard mineral formulations.

EXMARK PREMIUM ENGINE OIL SAE 0W-40

- The perfect choice for when the weather turns cold or unpredictable, and your Exmark UTV has to perform.
- Commercial quality for severe service.
- Advanced additive package helps prevent corrosion from long-term storage.

EXMARK PREMIUM ENGINE OIL UTV FORMULATION

- 4-cycle high-temp formulation.
- Heavier viscosity, full synthetic, perfect for your UTV.

EXMARK PREMIUM UTV EXTREME CONDITIONS GEAR OIL

- SAE 80W-90, designed to keep your UTV performing at its peak.
- Shear stable, hypoid gear lube.
- Includes a premium additive system to combat wear, oxidation, rust & corrosion.

Available from your local Exmark dealer. Find your closest dealer at exmark.com
