

ULTRAVAC® BAGGER

Model No. 126-6122—Serial No. 400000000 and Up

Picture below may not reflect actual product.

G037791

Parts Manual

Ordering Replacement Parts

To order replacement parts, please supply the part number, the quantity, and the description of each part desired.

Understanding Reference Numbers

Each identified part in an illustration has a reference number. The reference number for a part also appears in the parts list, along with other information about the part.

This catalog uses two special reference number formats, one to indicate parts in a service assembly and another to indicate the quantity of a given part in an illustration.

Service Assembly Reference Numbers

Parts in service assemblies have reference numbers in the form a:b. The a represents the reference number of the entire service assembly and the b represents a sequential number unique to each part within the service assembly.

For example, a wheel assembly might be identified by reference number 6, the tire by 6:1, the valve by 6:2, and the wheel by 6:3. When you order the assembly identified by reference number 6, you receive all parts identified by reference numbers 6:1, 6:2, and 6:3. However, you may also order any part individually. Reference numbers of this type appear in illustration and in parts lists.

Reference Numbers Indicating Quantity

In an illustration, if a reference number indicates more than one part, the reference number has the form nX y. The n represents the quantity of the part, the X is the multiplication symbol, and the y represents the reference number.

For example, in an illustration, the reference number 2X 37 means that two of the parts identified by reference number 37 are indicated.

Touch Up Paint

Exmark black touch up spray paint – gloss black.

Exmark red touch up paint (spray paint – P/N 1-850337 - .6 oz liquid bottle – P/N 103-9140).

If your Exmark dealer does not have the Exmark part in stock, Exmark will get the parts to the dealer the next business day or the part will be FREE Guaranteed!! (Some restrictions apply. See your participating Exmark Dealer for details.)

This exploded view diagram illustrates the assembly of a mechanical component. The parts are numbered as follows:

- 1**: A circular base plate with a central hole and four mounting points.
- 2**: A rectangular plate with a central hole and four mounting points.
- 3**: A small circular cap or plug.
- 4**: A small circular cap or plug.
- 5**: A curved, U-shaped component, likely a handle or bracket.
- 6**: A small circular cap or plug.
- 7**: A small circular cap or plug.
- 8**: A small circular cap or plug.
- 9**: A vertical rod or pin.
- 10**: A vertical rod or pin.
- 11**: A curved, U-shaped component, likely a handle or bracket.
- 12**: A small circular cap or plug.

The diagram shows the assembly sequence, with dashed lines indicating the alignment and position of each part relative to the main body. The main body is a large, rectangular frame with rounded corners and multiple mounting points. The assembly is shown in a disassembled state, allowing for a clear view of each component and its intended position.
